

Concrete

Protect & Cure Your Concrete in One Application

Retains Up to 91% of Moisture

- Increases Compressive Strength of Concrete by 30%
- Skudo Acts as a Thermal Blanket

Quick and Easy Application

Skudo is simply applied by brush, roller or airless spray gun.

Skudo Floor is an amazing new product that was designed to overcome the issues surrounding damage to finished surfaces during the construction phase.

Skudo Floor is a hard-wearing peelable coating that temporarily adheres directly to the surface, forming a continuous outer skin protecting it from damage and stains. It peels off upon job completion leaving the surface clean and saving you time and money spent on costly repairs that could have been avoided.

If you have ever had to deal with damages to a finished floor or surface caused by various tradesmen, you will see the value in this product.

Protect Your Finished Surface from Costly Site Damage

Paint-on, Peel-off Protection for Your Polished Concrete

Polished Concrete

Covered with Skudo

Surface Protected
